MEMORANDUM FOR THE RECORD

FROM:

Executive Assistant to the DDA

SUBJECT: Agency Participation in Federal Coordinating Committee on AIDS

REFERENCE: Letter to [redacted] from Robert E. Windom, M.D.,
Assistant Secretary for Health, dated 20 June 1988,
DDA 88-1355x, Same Subject

STAT

1. On 21 November 1988, [redacted] DDS&T/ORD/ARMD, called to inquire if anyone had attended the meeting in June of the subject organization. This was based upon his receipt of the referenced document. [redacted] advised that he is preparing a paper for the DDCI with regard to the Agency's position and options on "AIDS modeling". This paper will discuss what the Intelligence Community should do in the modeling arena, and it is Mr. [redacted] understanding that the DDCI wants this to be an open program.

2. OMS was contacted and they advised that no one had attended the meeting and requested that [redacted] contact [redacted] and brief him on the paper he is preparing. I advised [redacted] that no one had attended the meeting and he responded positively saying that this allowed him the option of requesting that the Agency participate at the subcommittee level on research. He also agreed to contact [redacted] and provide him a briefing. He said that no further action was necessary.
